Visual Arts – Year 8

# Introduction

This document summarises the requirements and expectations for Year 7 students regarding assessment. It contains assessment information, the assessment calendar and course schedules detailing the formal assessment program for each of the courses being delivered.

# Year 7 Requirements

The NSW Education Standards Authority (NESA) is responsible for setting all regulations for the completion of Stage 4 (Years 7 and 8) in all NSW schools and with this student must:

- attend an accredited school
- follow and complete the course developed by each faculty
- apply themselves with diligence and sustained effort to the set tasks and experiences provided in the course by the school
- achieve some or all of the course outcomes.

## Subjects - Courses

NESA rules require the following pattern of study for students in Stage 4 (Years 7 and 8):

- English in each year
- Mathematics in each year
- Science in each year
- Personal Development, Health and Physical Education in each year
- Human Society and its Environment in each year (History/Geography)
- A Language other than English for at least one year
- Creative Arts including Music, Visual Arts for at least one year
- Technology and Applied Science, including use of computers.

In addition, our school is offering a **Local Aboriginal Culture** (LAC) course focusing on the Wiradjuri Culture. In this course that is supported by the Aboriginal Outcomes and Partnerships Directorate (APOD) and NSW Aboriginal Education Consultative Group Inc (AECG). Students will engage in learning experiences to increase knowledge and understanding of Aboriginal histories and culture. This course will be reported on, however, an assessment schedule will not be implemented.

Current syllabuses are available online:

https://educationstandards.nsw.edu.au/wps/portal/nesa/k-10/years/stage-4

# **Course Completion**

For each course, a student will be considered to have satisfactorily completed a course if, in the principal's view, there is sufficient evidence that the student has:

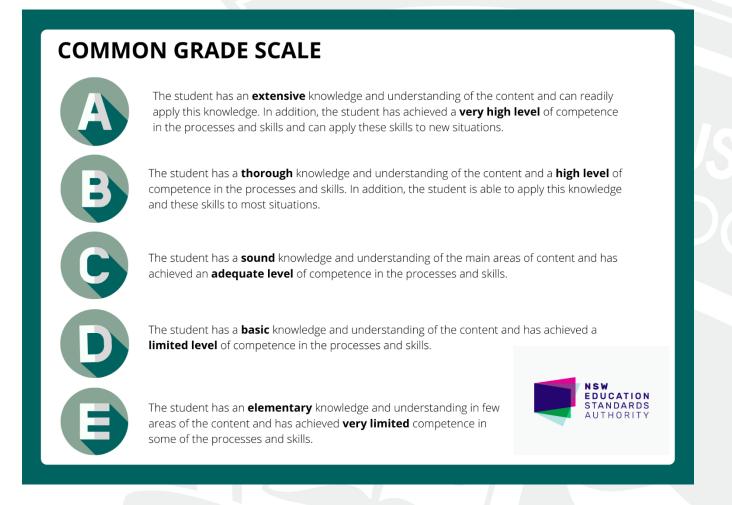

- followed the course specified by NESA
- applied themselves with diligence and sustained effort to the set tasks and experiences provided in the course by the school; and
- achieved some or all of the course outcomes.

Every school in NSW is required to certify that students have satisfied these expectations.

# Grading in Stage 4 Courses

The grades for a course will be determined based on the student's performances in assessment tasks, as detailed in the Assessment Schedule, using the Grade Scale outlined below.

The Common Grade Scale shown below is used to report student achievement in Stage 4 (Years 7 and 8).

Available online: <u>https://educationstandards.nsw.edu.au/wps/portal/nesa/k-10/understanding-the-curriculum/awarding-grades/common-grade-scale</u>

# Attendance

Students must maintain satisfactory attendance (typically, 95%) to make sure that all course requirements are met. Granting of leave is a matter for the school principal to determine. The Principal has discretion in granting leave if they are satisfied that the reason for the absence is substantial and that the progress of the student towards course outcomes will not be unduly affected. Where the leave requested is for an extended period, the student must demonstrate to the Principal that outcomes in each course will be achieved.

# Assessment Procedures – Year 7

The **Year 7 Course Assessment Schedule** is set out in this Assessment Booklet. It contains information about the set tasks in each of the courses offered. The course assessment schedule provides information on approximately when the various assessment tasks will take place. The date of each assessment task will be provided by the classroom teacher at least two weeks prior to the task.

This Assessment Booklet is also available on the school's website and emailed to students, parents, and carers at the start of the academic year. Students are required to complete all Assessment Tasks to demonstrate they are working towards meeting course outcomes.

Every faculty maintains a register to indicate the date that each student receives formal notification of tasks. If a student is absent, it is their responsibility to catch themselves up with the details of any task notifications. The details are also available in the course's Google Classroom. Scheduling dates may have to be changed due to unforeseen circumstances. This change will be endorsed by the faculty Head Teacher and written notification of the change will be given to all students involved and will also be in the course's Google Classroom.

Students must make a genuine attempt at assessment tasks. Every student will be provided with formal feedback for each assessment. This may involve written advice, verbal discussions and marking grids.

The assessments listed on the Assessment Schedule will contribute to both the final grades and the achievement reported in the school reports. Each student is expected to personally complete the assessment tasks listed as well as all the other assessments which teachers may use to determine student progress.

Students with parents and carers should be aware of upcoming assessment tasks and ensure that appointments, holidays, or sporting trips are not booked during a scheduled assessment task.

Attendance, on the day the assessment task is either to be performed or submitted, is essential. Students who are unable to attend school to submit the assessment task must contact the school. Parents or caregivers are required to contact the school to inform the Class Teacher or Head Teacher on the day via phone or email.

The task may be required to be submitted online.

The principal reserves the right to alter the Mount Austin High School Assessment Procedures should exceptional circumstances present themselves.

# Letters of Concern and Contact with Home

A student who fails to meet the requirements in any course may receive a formal letter of concern or be contacted by the class teacher or head teacher via phone, text message or email.

## Life Skills

Most students with disability and additional learning and support needs follow the standard Year 7 to 10 curriculum set by the NESA with adjustments made to the learning experiences presented. Students with additional educational needs, which prevent them from successfully accessing regular courses, are eligible to study Life Skills courses.

Life Skills courses help students to achieve outcomes appropriately matched to their strengths, goals and interests. They also support the needs of the individual student. Assessment in this pattern of study provides opportunities for students to demonstrate achievement in relation to the selected Life Skills outcomes for the individual student. This assessment can occur in a range of situations or environments such as the school and wider community.

# Additional Information for Students

### Change of date or task

For a change of date for a task, written notification will be given to all students in a class or course and this change will be authorised by the faculty Head Teacher. This will also be posted in the Google Classroom.

### Extensions

Extensions of time may be granted only in exceptional circumstances. Students are not to consider that extensions of time will be granted automatically for assessment tasks. Parents or caregivers are required to contact the school – Class Teacher and/or Head Teacher via phone, email or written note.

### Missed Assessment Tasks

The parents or carers of a student who is away on the day of an in-class assessment task (including examinations) should again contact the school by 9.00am to let the Class Teacher and faculty Head Teacher know they will be missing the task. Generally, in-class assessment tasks can only be missed for exceptional circumstances. The student must speak to the faculty Head Teacher immediately on their return to school.

### Hand-in Tasks

A student who is away on the day of a hand-in task is still expected to submit their task digitally through Google Classroom. If appropriate, the task can be uploaded to the teaching and learning area where the assignment is posted or emailed to their Class Teacher or faculty Head Teacher. Evidence of completion is required on the due date.

### Missed in-class tasks and late tasks

All students must complete all assessment tasks on the specified time and due date. If the student cannot show that missing a task or lateness was due to 'exceptional circumstances' a penalty will exist. If a task is late without following school procedures the following will take place - for the first week (5 school days) that a task is late 50% or half marks can be awarded after 5 days, however, a mark of zero will be awarded for the task. Failure to submit or complete work is 'non-completion' and may lead to a letter of concern.

### Malpractice, plagiarism, non-completion and zero marks for a task

Academic malpractice is a serious breach of rules and can result in a zero mark being awarded. The faculty Head Teacher will investigate malpractice on a task who will advise the year group Deputy Principal. Parents will be contacted after the initial investigation.

### Technology failure including computer and/or printers

Students should submit assessment tasks as specified on the Assessment Notification. A printed hard copy of their assessment task as well as a saved soft copy or digital copy if appropriate must be retained for all assessment tasks by the students.

Technology - computer hardware/software or printer failure will not be accepted as an excuse for late submission. When working on assessments students are advised to have a backup computer copy of all tasks including backing up in the cloud e.g., Google Drive as well as draft printed copies.

# Year 7 Assessment Schedule Calendar

# Year 7 Formal Assessment Program Assessment Schedules

Formal school-based assessment provides opportunities to gather evidence about student achievement of syllabus outcomes. Formal assessment tasks are those which students undertake as part of the school-based assessment program, reflecting specific course requirements, components and weightings.

### Task Types

Some examples of task types considered appropriate for formal assessment are, but not limited to:

- Topic tests
- Examinations
- Presentations digital, oral, multimodal, viva voce
- Reports analytical, fieldwork, research, written
- Practical work experiments, improvisation, projects, performances
- Portfolios, journals, logbooks, process diaries
- Compositions
- Groupwork tasks

#### A formal assessment task may contain more than one part.

### Assessment Task Notifications

The following pages contain Assessment Schedules for each subject being delivered in Stage 5 at Mount Austin High School this year. For each task listed, a formal assessment task notification will be provided to students at least two weeks prior to the due date detailing the requirements of the task.

### Assessment Schedules – start on the following page

English	
Geography (HSIE)	
History (HSIE)	
Language – Year 7	
Mathematics	
Music – Year 8	
Technology Mandatory Rotation	
Personal Development, Health and Physical Education	
Science	

<u>Note</u>: The **Local Aboriginal Culture** (LAC) course focusing on the Wiradjuri Culture will be reported on, however, does not have a formal assessment schedule as per the AOPD and AECG agreement.

#### DRAMA

Task No.	Task Details Topic / Task Type	Weighting	Date Due	Course Outcomes	Reporting Statement
1	Group devised performance and reflection	50%	Term 2 Week 4	DR4-MAK-01 DR4-PER-01 DR4-APP-01	All
2	Puppetry performance and reflection	50%	Term 4 Week 4	DR4-MAK-01 DR4-PER-01 DR4-APP-01	All

Course Outcomes	Reporting Statements
A student:	A student:
<ul> <li>DR4-MAK-01 creates meaning through experimentation with dramatic contexts, processes and elements</li> <li>DR4-PER-01 uses performance skills to communicate meaning and engage audiences through dramatic contexts, processes and elements</li> <li>DR4-APP-01 explains how creative choices shape works and experiences through dramatic contexts, processes and elements</li> </ul>	<ol> <li>demonstrates their knowledge of the elements of drama through experimentation in different contexts</li> <li>demonstrates their understanding of the elements of performance through communication and performance</li> </ol>
	3. explains their understanding of drama through creative choices and processes

#### ENGLISH

Task No.	Task Details Topic / Task Type	Weighting	Date Due	Course Outcomes	Reporting Statement	
1	Animation:	30%	Term 1	EN4-RVL-01, EN4-URA-01,	1 0
